GLENROYD MEDICAL'S NEWS

At the end of September we were very sorry to bid good bye to Doctor Michael Powell, wishing him a Happy and Healthy retirement

Welcome to the four New Reception and Administration Staff; Taylor, Kellie, Jo and Louise, who are working along side our diligent established staff, at both surgeries

Thank you to all these of you who have supported the **PPG Book Stall at Moor Park**, either by purchasing the books and /or the CDs and DVDs on sale most Mondays and Tuesdays, all day, and Wednesday mornings, as well as supplying us with the goods to sell.

If you have any such goods you or yours have finished with, they are always grateful to receive. They can be left when the stall is open or with the Receptionists at both surgeries. The money raised, has helped to fund this Newsletter and past Editions. It has also help towards paying for a 'New Treatment Couch', so the District Nurses can carry on their vital work.

Once again a big thank you to all those who bought Raffle Tickets in the **Christmas Draw**. Congratulations to those that won one of the numerous prizes. We are pleased to report that **£234. 00** was raised.

We will be recommencing the **Practice Survey** in the New Year. Thank you to those who have already filled a survey in and we hope more of you will do the same this year, in order to get your help with the 'Whys and Wherefores' of Glenroyd Medical.

RIDDLES

JOKES

Living in a “Coughs and Sneezes Spread Diseases -

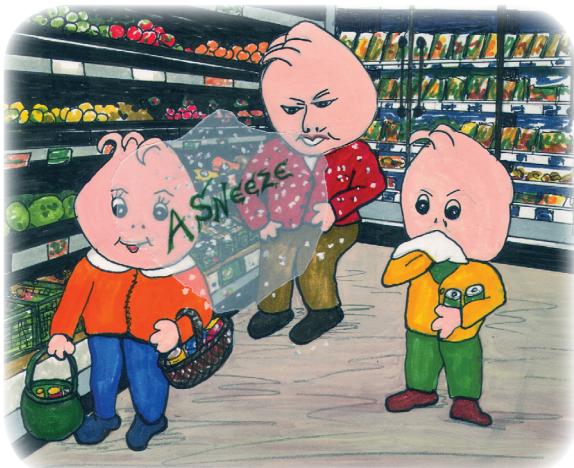

WILL - Mum I'm too ill to go to School, I've got a cold (*sniff, sniff*)

GLENIS (MUM) - Well we can't have you spreading your germs around the class, come on have your cereals and I will make you a cup of hot chocolate.

WILL - How did I get this cold?

GLENIS (MUM) - It is spread by people and of course that includes children, who cough and sneeze all over the place and never using a handkerchief to catch the germs. When they go to school, to work and shopping, they

spray their germs over the people and everything around them. Their computers, desks and the goods in the shops. Then you touch something that they have coughed or sneezed over and you then have their germs.

Germ Zone

- Trap Your Germs in a Handkerchief"

Many people go to the toilet, either at home, at school or when shopping and don't wash their hands afterwards -- more germs of every type are then spread onto door handles and everything they touch.

So I hope you wash your hands after you have been to the toilet,
you don't want to give others your cold.

WILL- Er . well ...um..... I will always in future!

REMEMBER,
"IF YOU GO FOR A No. 1 OR No. 2 -
ALWAYS WASH YOUR HANDS
AFTER USING THE LOO"
